EXECUTIVE PROFILE

Self-taught engineer since age 11 with **6+ years of professional experience** building **high-availability APIs, SaaS platforms, and government digital systems** across Egypt and Saudi Arabia. Specialised in **NestJS & Node.js** architecture with a deep **Laravel/PHP** foundation. Proven record of scaling systems to 10k+ DAU, reducing infrastructure costs through Redis and query optimisation, and accelerating team delivery via AI-assisted test automation.

Key Highlights:

- **Backend Architecture:** Scalable RESTful APIs with NestJS (TypeScript), Prisma ORM, & Laravel (PHP 8+).
- **Performance & Reliability:** Redis caching, query optimisation, Docker — 10k+ DAU at 99.99% uptime.
- **Testing Innovation:** AI-assisted pipeline covering 1,600+ API endpoints — over 90% reduction in test-writing time.
- **DevOps:** Docker, CI/CD (GitHub Actions), AWS deployment, Nginx & Linux administration.

WORK EXPERIENCE

Senior Backend Engineer | **E2E County** *Jun 2025 – Present*
Cairo, Egypt

- Architected migration of a decade-old Zend Framework 1 monolith to modern Laravel — covering **30+ modules**, **650+ database tables**, and multiple DB connections, with **100% data integrity** maintained across 6 months.
- Collaborated with a cross-functional team of **30+** (6 Backend, 7 Frontend, 4 QA, UI/UX) in a large-scale Agile environment, driving on-time feature delivery.
- Designed an **AI-assisted test automation pipeline** using Postman collections and table-level documentation; cut test-authoring time for **1,600+ API endpoints** by over **90%**.
- Standardised AI prompt templates and test scripts adopted as team-wide QA practices, reducing regression cycles by **40%**.

Senior Backend Engineer | **Ibtikarat** *Aug 2023 – Jun 2025*
Riyadh, Saudi Arabia (Remote)

- Spearheaded backend architecture for government digital transformation projects, scaling to **10k+ daily active users** at **99.99% uptime** using Redis caching and optimised Eloquent queries.
- Engineered a **Multi-tenant SaaS** core with Laravel & Livewire; integrated 5+ government APIs, expanding platform service capabilities by **40%**.
- Enhanced user retention by **15%** and increased organic traffic through OWASP security hardening and SEO structure optimisation.

Backend Team Lead | **Developer Network** *Jan 2023 – Aug 2023*
Cairo, Egypt

- Led development of *Jarvis*, a unified communication platform integrating **Meta (Facebook/WhatsApp) APIs** for enterprise customer support, onboarding 3 major clients within the first quarter.
- Implemented **Redis caching** and refactored Eloquent queries, achieving a **20% reduction** in server response time across high-traffic endpoints.
- Mentored 3 engineers on SOLID principles, TDD, and clean architecture, reducing post-release critical bugs by **30%**.

TECHNICAL SKILLS

Primary Stack (Current Focus)
NestJS · Node.js · TypeScript · Prisma

Previous Stack
PHP 8+ · Laravel · Livewire

Frontend
Vue.js · Nuxt 3 · Express.js

Architecture & Patterns
RESTful APIs · MVC · SOLID · TDD Domain-Driven Design · Microservices

Database & Storage
MySQL · PostgreSQL · MongoDB Redis (Cache/Queues) · Prisma ORM Eloquest ORM

DevOps & Tooling
Docker · CI/CD (GitHub Actions) AWS · Nginx · Linux · Git Kubernetes (Basics)

Testing & QA
PHPUnit · Postman AI-assisted automation pipelines

Domain Expertise
FinTech · E-commerce · Logistics Government Digital Transformation

OPEN SOURCE

nest-scaffolding-crud-manager
NestJS · TypeScript · Prisma
https://github.com/kamalsroor1/nest-scaffolding-crud-manager
Auto-generates full CRUD modules for NestJS — controllers, services, DTOs, Prisma schema.

laravel-vue-modules (HMVC)
Laravel · Vue.js · HMVC · CRUD Generator
https://github.com/kamalsroor1/laravel-vue-modules
HMVC scaffolding with built-in CRUD generator — written before AI tooling existed.

sroor-laravel-payment
Laravel · Multi-gateway
https://github.com/Kamalsroor/sroor-laravel-payment
Open-source multi-gateway payment integration package for Laravel.

KEY PROJECTS

Review App — reviewapp.sa — B2B SaaS for reputation management. Increased engagement by 20% via real-time notifications.

Theqa App — theqa.app — Secure QA platform with OAuth2. Achieved 99.9% availability for high-load APIs.

Ettazenn — ettazenn.com — Health tracking ecosystem integrating wearable IoT device data.

Al-Taawoun FC — altaawounfc.com — High-traffic sports platform; zero downtime during peak spikes via Redis.

Store (Matajer App) — mapp.sa — Scalable multi-vendor e-commerce on multi-tenant Laravel.

SOFT SKILLS

- Team Leadership & Mentoring
- Agile / Scrum Management
- Cross-functional Collaboration
- Strategic Problem Solving

Backend Engineer | **Pyramids Freight** *Oct 2021 – Dec 2022*
Cairo, Egypt

- Architected the backend for a logistics management system with complex freight calculation logic and real-time shipment tracking.
- Integrated **Stripe Payment Gateway** with 3D Secure, reducing payment failures by **15%** and improving transaction success rate.
- Refactored legacy SQL queries and introduced database indexing, cutting average page load time by **50%** (3s → 1.5s).

Early Career (2019 – 2021)
Mid-Level Engineer — Abudiyab Rent A Car · ElNoor-Online · Innovation Hub · CVC · G-TECH

- Built a car rental booking engine with dynamic pricing; integrated Riyad Bank & Mastercard payment APIs, driving a **20% surge** in SEO-driven organic traffic.
- Scaled Laravel architecture supporting **30% user growth** without infrastructure upgrades; automated CI/CD pipelines reducing release time by **20%**.
- Implemented Redis caching layers improving read-heavy operations by **40%**; standardised Swagger/OpenAPI documentation cutting third-party integration cycles by **15%**.

EDUCATION

B.Sc. Management Information Systems
New Cairo Academy · Cairo, Egypt
Graduated 2024 | Self-taught engineer since 2009

CERTIFICATIONS

- Docker & CI/CD — Udemy (2024)
- Advanced PHP Optimization — Udemy (2022)
- Laravel Certification — Laracasts (2019)
